

SOFTWARE REVIEW REQUEST

Instructions:

1. Fully complete all sections– refer to Process Instructions for Legal Department Software Approval or contact the Legal Department for assistance.
2. Attach extra pages as necessary.
3. Forward to: ABSLegal@eagle.org

Requestor: Qing Yu Date of request: 03/02/2026

Extension/Mobile Number: 1-281-877-5903 Deadline: _____

Name of Software: Eagle PRoll Diagram

1. Please provide a description of Software: Eagle PRoll Diagram is an engineering application that allows users to visualize the magnitude of container carrier roll motion based on precalculated vessel motion database and the user input vessel operation condition. Users can use this application to provide operation guidance for onboard crew members or assist vessel voyage planning. The application can support users to meet part of the ABS class requirements for container carriers with the PARR notation following the <i>ABS Guide for Assessment of Parametric Roll Resonance</i> and the CLP-V(PARR) notation following the <i>ABS Requirements for Certification of Container Securing Systems</i>.	Is this a new software program?	Yes No ☒ ☐
	Is this an enhancement of an existing software program?	Yes No ☐ ☒
	If this is an enhancement, please give the current version number and date of release.	Current Version No.:
	Will the Software be used by external customer(s) outside of ABS?	Yes No ☒ ☐
	If yes, will this external distribution be with or without restrictions?	With Without ☒ ☐

2. List the countries and/or nationalities of the intended end-users of this product: (Attach a separate page if additional space is required)

Program cannot be exported to the following countries or nationals of these countries: North Korea, Cuba, Iran, Sudan, and Syria.

3. Is this software being developed for sale or for distribution to Customers at no charge?

Yes ☐ No ☒

4. Is the software being sold,

- for profit?
- for cost of development and distribution only?

☐ Profit ☒ Not for sale
☐ Cost

5. List the ABS subsidiaries and affiliated companies that may be involved in the sale or marketing of this software? (Note: ABS Nautical Systems is not a subsidiary or affiliate of ABS; it is a product line within ABS)

☐ ABS Group of Companies, Inc. ☐ Other

If other, please list below. Kindly attach a separate page if more space is needed:

6. Who was involved in the creation and/or development of this Software?

☒ Wipro ☐ Geometric ☐ Oberon Technologies ☒ Other: IMS & Technology

List both internal and external parties, including but not limited to programmers, coders, designers, employees and sub-contractors, and in the case of a vender listed under "Other", please attach any contracts and/or work orders that are associated with the creation/development of the Software.

7A. Identify any potential features to consider for patent protection. If none, please check the box below.

For guidance for how to recognize a patentable feature: <http://www.ipwatchdog.com/2013/02/16/a-guide-to-patenting-software-getting-started/id=35629/>

☒ None

7B. Identify any potential features to consider for trademark protection. If none, please check the box below.

For guidance on trademarks: <http://www.uspto.gov/trademarks/basics/>

☒ None

8. Are there any products similar to this Software that you would consider to be competition?	☒ Yes ☒ No
9A. If yes, please describe any products that may be owned or developed by our competitors:	9B. Which competitor of ABS? ☐ LR ☐ BV ☒ DNV-GL ☐ NK ☐ CCS ☐ OTHER: _____
10. How many users do you anticipate will use this software? 50	
11. If you plan on distributing the Software outside of the United States or to foreign nationals, has an export compliance classification been submitted to ABS' Export Compliance Department? ☒ Yes ☐ No ECCN: <u>8D992</u>	
12. Does this Software have any third party components? ☒ Yes ☐ No If yes, please provide the details of each third party component by completing the attached "Third Party Software Components" schedule.	
13. Describe how the program will be technically implemented: a. As a standalone PC program (including client/server architecture; i.e. database on a server)? ☒ Yes ☐ No b. How will the end user access the Software? ☒ Web-based ☐ Disk ☒ Download c. Is access to the program single or multi-user? ☐ Single ☒ Multi If multi-user, how is access and limited concurrent usage to be controlled? Please provide details, as necessary, on a separate page. - Internal users login through Azure Entra ID of desktop version installed on users' local computers - External users desktop version installed on users' local computers d. Will the software application and database be hosted at ABS for users to access remotely (such as web-based access)? Yes for ABS internal user only.	

e. Will the software be installed at customer site?

☒

Yes

☐

No

f. Will customer be installing the software?

☒

Yes

☐

No

g. Does the Software have a demo/trial version?

☐

Yes

☒

No

h. Do you plan on providing the Software on a trial basis for more than 60 days?

☐

Yes

☒

No

FOR USE BY LEGAL DEPARTMENT ONLY

DENIED

RESTRICTIONS ON USE AND/OR DISTRIBUTION: Distribution of ABS CONTAINERSHIP is limited to the "Territory" as defined in the software license agreement to FEMAP between Siemens and ABS. End Users are prohibited from redistributing ABS CONTAINERSHIP as the license agreement for VECTORDRAW prohibits redistribution of this third party software component. Distribution is not permitted to the following countries or nationals of the same: Syria, Sudan, North Korea, Iran, Cuba

COMMENTS: Please follow all attribution requirements as set forth in the license agreements for the third party components.

Please use the space below for any additional information or comments. You may attach additional pages, if necessary.

THIRD PARTY SOFTWARE COMPONENTS

The following third party software components are incorporated into the Software and used and licensed under the terms and conditions of their respective licensing agreements.

For Open Source components, we've contemplated licenses we commonly see. To expedite our review, please indicate the version of the applicable Open Source License (for Example: GPL2, Apache 2.0), or state whether the MIT License or the Open Source License Agreement from Code Project applies to your component by entering YES or NO. We have completed a first row for you as an example.
